## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Swanzev :

I have the honor to submit my twelfth annual report.

**Teachers:** There were four changes in our teaching staff as schools reopened last September. Mr. David W. Field left us to accept a position in Brattleboro, Vermont. Mr. Jerome J. Rogers, former Swanzev teacher who taught in Florida last year, returned to replace Mr. Field. Mr. Roland W. Warner left Swanzev to teach in Winchester, New Hampshire. His position was filled by the election of Mr. Douglas M. Leslie who taught in Hinsdale, New Hampshire, last year. Mrs. Anne V. Luoma is now teaching in Annapolis, Maryland. Mr. Thomas W. Schultz was engaged to take her place. Mrs. Dorothy C. O'Mara has moved to Connecticut. She has been replaced by Mrs. Nancy L. Darsinos.

Mr. Rogers is a graduate of Ithaca College, Mr. Leslie is a graduate of the University of New Hampshire, Mr. Schultz is a graduate of Keene Teachers College and Mrs. Darsinos is a graduate of Bridgewater Teachers College, Bridgewater, Massachusetts.

Next year's enrollment will tax the facilities of the Cutler and Mt. Caesar Schools. However, unless we get an unexpected increase in the number of pupils, we should be able to operate our schools with the same number of rooms and teachers as we have this year. The saturation point, though, is not far off and thought must be given to expanding our plant before too long. This is particularly true if we wish to continue to improve our instruction to the pupils of Swanzey.

This year saw the extension of the departmental system to grade five and six, since it had been found to work so well for grades seven and eight. In the departmental system each teacher teaches that subject or subjects in which he is particularly strong. For instance, since we have three fifth grade classes, one teacher teaches arithmetic to each of the three classes. The other two fifth grade teachers do not teach arith-

metic. One of them might be responsible for all of the English instruction, for example. The pupils get more uniform instruction in this way and also benefit from the experience of having more than one teacher. The transition from elementary school to high school will be much easier for Swanzey pupils from now on.

Departmentalization, to the extent that it is being used in Swanzey, would be impossible but for the 4-4 plan of pupil distribution, that is the first four grades in the Mt. Caesar School and the upper four grades in the Cutler School. The 4-4 plan, moreover, is economical in that fewer rooms and teachers are necessary for its operation.

Another goal which we have set is to bring about ability grouping to a greater extent than we have at present. Since children learn at varying rates, it is good practice to group children of similar capabilities as much as possible. A slow child's frustration is often avoided if he is placed in a class of slower learners. In such a class he is more able to hold his own and he is more confident. On the other hand, the more gifted child, when placed in a faster group, is challenged to put forth greater effort and he will learn more than in the typical heterogeneous class. Here, again, ability grouping has a greater possibility under our 4-4 plan of pupil distribution. This plan brings about the largest number of pupils at each grade level under one roof which is essential for the most efficient and successful grouping according to ability.

Swanzey pupils are reading more books than ever before. This is a result of the splendid cooperation we receive from the two librarians, Mrs. Olivia Belding and Mrs. David Jardine, with the aid of Mrs. Charles Plimpton. Every Thursday is library day for the Swanzey schools. It is heartening to watch the pupils file into the section of the cafeteria in each school which has been outfitted as a library as they return books and take out new ones. The circulation is extremely gratifying, being approximately 1,650 books per month in both schools or almost three books each month per pupil. This number will undoubtedly increase as the reading habit becomes stronger among our pupils.

Since Mrs. Claudia R. Howard has been with us as music

supervisor, the musical education of our boys and girls is exceptionally well provided for. We are fortunate to have a person of Mrs. Howard's ability on our staff. Music is another facet in a child's broad and well-rounded education.

One thing is certain and that is that Swanzey pupils learn to write as well as in any other school system anywhere. The Rinehart Handwriting System is responsible for this although actual instruction is done by our teachers. Monthly supervision and checking is carried out by the supervisors and intense motivation is evident.

Two new television sets have been installed, one in each school, and educational television is now available to our pupils. A contribution by the Keene Rotary Club gave us the initial impetus in this venture. Programs in science, social studies, music, etc., are an aid to our teachers in enriching the subject areas.

The Swanzey schools have improved tremendously in the last decade. We should be proud of the fact that we have two of the finest elementary schools in the state. This would not have been possible but for the vision and wisdom of our school boards and school planning committees and the support of the Swanzey citizens.

At the secondary level, Swanzey is faced with making a decision as to what course to pursue, either to continue to send the high school pupils to Keene on a tuition basis or to join with other towns to form a cooperative school district and share in the expenses of a new cooperative high school.

The school boards and school planning committees of Hinsdale, Richmond, Swanzey and Winchester have decided to insert an article in their respective school district warrants petitioning the State Board of Education to investigate the practicality and feasibility of the formation of a cooperative school district in this section of the state. The article will be worded in each warrant that it will be mandatory for each of the larger school districts of Hinsdale, Swanzey and Winchester to vote in the affirmative for a cooperative school district in order for it to be even considered.

The proposed high school will have a potential enrollment of some 700 pupils in grades 9-12. A school of this size would

be well equipped to do the job recommended by Dr. James B. Conant, former president of Harvard University, in his current study of the American high school. The following are some of the things which a cooperative district can provide:

Adequate supervisory service by specialists in various fields.

Modern plant and facilities.

Opportunities for improved and additional vocational training in such fields as business, machine shop, auto mechanics, woodworking, etc.

Guidance services under one or more trained counselors.

Adequate physical education facilities such as play areas, gymnasium, lockers and showers, and facilities for special corrective work to be carried out by trained physical education specialists.

Suitably appointed cafeteria serving well-balanced meals.

Classes at an economic size.

More economic use of specialized equipment for science, art, homemaking, shop, audio-visual education, dramatics, etc.

A well-rounded music program providing for band, orchestra, vocal groups, and supervision of music instruction in all grades.

A specialist in art work who can instruct high school classes and supervise the elementary art work.

Flexibility in course offerings to meet interest, aptitudes and abilities of individual students.

Working conditions and salaries which will attract and hold good teachers.

An adequate school library.

A well equipped stage for school dramatics and music work.

Sufficient enrollment to provide good interscholastic and intramural teams in all sports.

Savings through quantity purchasing of school supplies and equipment.

A broad program of clubs and other co-curricular activities to meet various student interests.

An opportunity for each individual child to be broadened

by contacts with more boys and girls and more teachers with wider experience.

Improved and widened course offerings.

A broader and richer program.

The payment on the principal of a loan is more heavily reimbursed by the state department of education in the case of a cooperative district than in that of a single tradition district. This is true of elementary as well as secondary construction. Factors such as these should be considered seriously by the citizens of Swanzey. Ours is a growing community and school costs will continue to rise. The voters will have a choice at the annual meeting to determine the course of Swanzey education for years to come. This choice, therefore, should not be an idle one but should be made only after due deliberation and thought.

In conclusion, I wish to express my appreciation to the teachers, pupils and parents, the School Planning Committee, the School Board, and the patrons of our schools for their cooperation.

Respectfully submitted,

CHESTER C. LEES,

Superintendent of Schools.

## YOU CAN HELP PREVENT FOREST FIRES

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning—brush, paper, leaves, grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores; brush, etc. cut on your property. Eliminate the hazard of burning yourself. It will be easier for you—personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

***Save yourself much possible difficulty***

***Use your town dump***
